

# 2015 Colorado Space Grant Consortium Undergraduate Space Research Symposium

Colorado Space Grant Consortium is seeking sponsorship for the 2015 COSGC Undergraduate Space Research Symposium, April 18, 2015 featuring students from around the state of Colorado who will present their research and projects.

A donation of \$300 will sponsor the winning award in one student session. \$1,200 will sponsor the grand prize award. Student authors receive 100% of the money. Industry sponsors will be recognized during the event in several ways: 1) Verbally during the welcome and closing ceremonies; 2) A logo will be placed on the award certificate presented to the student prize winner; and 3) A logo will be included on fliers posted in the venue atrium and on the event agenda.

We invite all industry sponsors to attend the events of the day, which will include presentations of student research papers, student hardware demonstrations, an exciting Keynote Speaker, and the opportunity to interact with some of our talented future leaders.
